

PARKER ICON MIG GUNS

Parker ICON MIG guns are feature rich and fully interchangeable with the most popular North American styles from **Bernard®**, **Tweco®** and **Tregaskiss®**. Available in a range of amperages, cable lengths and gun plug terminations – including **Miller®**, **Lincoln®** and **Tweco®** - Parker Torchology® has a manual MIG gun for every wire feeder.

Features:

- Interchangeable with OEM brands from front to back
- Equipped with the most popular liners, contact tips and nozzle sizes – plug and play!
- Strain reliefs at the handles and plugs reduce wear on the power cable
- Sold in retail friendly clamshell packaging – see the torch without removing it from the box
- Easily used with Centerfire®, Eliminator® or Tough Lock® consumables – change out the diffuser and go!
