MagSquares

Magswitch magnetic squares are the most versatile workholding and fixturing tool ever! Align and secure flat or round pieces of steel to fabricate angles. Pull corners, secure steel for cutting, use as a guide or make your own fixtures with our MagSquares. 4 sizes available.

* Also available in High Heat versions.

Ground Clamps

Magswitch magnetic ground clamps feature fin design that lowers temperature by almost 27%! No more tacking necessary. Simply place our magnetic ground clamp on a clean work surface, turn on and start welding! 3 sizes available.

Multi Angle Tools

Magswitch multi angles are the magnetic workholding tool with multiple angles in one! They offer a wide range of angles: 45/135°, 60/120°, 75/105° and 90° angles. Extremely versatile welding and fabrication angle tools! Multiple varieties available.

90 Degree Angle Tools

Magswitch 90 Degree Angles deliver superior accuracy, efficiency and speed at a fixed 90-degree welding angle. Simply adjust the MagSquares by sliding them up or down on each axis for unmatched versatility! 4 sizes available.

BoomerAngles

Magswitch BoomerAngles feature a rotating MagSquare at each axis which provides virtually unlimited angles including a pre-set for 90-degree holding. You can easily turn it on and off by rotating the black handles! 3 sizes available.

MagVises

Magswitch MagVises that you don't have to bolt in place! Perfect for drilling, cutting, grinding and beveling small to medium size pieces. Unbelievable magnetic force can be switched on and off just by rotating the handle. When you're done, just move it to where it's needed next! 2 sizes available.

81001269 | 81001215 | 8100367

Pivot Angles

Magswitch magnetic pivot welding angles offer a range of angles from 20 to 270 (Pivot Angle 200) and 0 to 270 degrees (Pivot 150) with several indicators and detents. Two sides of the tool magnetize when turned on and can be secured to a table or wall to hold a fixture in place. 2 sizes available.

81001155 | 81001240 | 8100920

MagDrills

Magswitch MagDrill Disruptor series offers superior magnetic performance on a range of steel-flat or curved surfaces. Drill holds strong on thick or thin steel. Magnets can be partially actuated in order to slide the drill, eliminating the need for expensive adapters.

MagWheels

Magswitch MagWheels have a powerful connection to drive units on any ferrous surface enabling flat, vertical or inverse travel. Ideal for sheet feeding, pipe handling, fitting and fabrication, and numerous OEM automation applications. 4 sizes available.

8100051 | 8100077 | 8100111

MagTethers

Magswitch MagTethers help you tether you or your equipment while working above and below water. Our MagTethers are sealed with a marine grade corrosion resistant coating that performs impressively even in saltwater! 3 sizes available.

"Welders & fabricators are experiencing a significant increase in speed, productivity and safety with the use of Magswitch magnets!"

Magswitch Advantages

- True ON/OFF magnet
- Holds strong on flat or round surfaces.
- Precise placement
- Stays clean
- Exceptional hold on thin steel
- Increases safety, efficiency and speed

We also provide custom product solutions. Ask your sales rep about how to customize a Magswitch product to fit your needs or email us at customproducts@magswitch.com

Magswitch Applications

- Welding & Fabrication
- Lifting
- Drilling & Tapping
- Material Handling
- Mounting
- Woodworking
- Custom Heavy Lifting
- Automation
- Shipbuilding/ Ship Fitting
