

**DURAGRIP AUTO-VOLTAGE
SPOOL GUN
MIG/MAG SERIES**

Welding Tools for the Professional

A Smart Approach

Parker Torchology is shaped by people with vision, a passion for improvement and a belief in delivering the very best Welding and Cutting Torch Range in the World.

We expect a great deal from our products, so we ask a lot of ourselves and our engineers.

Our mantra: **Innovation, Technology, Performance.**

DNA

Design and Engineering excellence are at the core of everything we do.

Every torch we build is driven by our relentless pursuit of perfection.

Premium Features

At Parker Torchology we do things differently, we strive to solve your problems with the perfect product to suit your needs. We create smart product features encased in cutting-edge design to ensure you always have the best tools to hand.

Production

A fusion of precision production engineering, our bespoke processing techniques and a fanatical attention to detail ensures every welding torch we produce is worthy of the Parker Torchology name.

Testing, Testing, Testing

It takes patience to develop a new product, it's a lot more than a great idea.

Product development is an iterative process, trying something over and over, changing one small variable at a time.

We build endless prototypes and test pieces that undergo months of rigorous testing. Only once a product has passed up to 88 different test procedures, with every single part tested separately do we consider our latest designs ready for market.

Partners

Our customers and business partners play a vital role in our development. With the core aim to strive together, we work with end-users, distributors and academic institutions alike.

As a result we share fundamental values in order to succeed in our respective market places, supporting economic growth and collaborative opportunities with others.

A Bright Future

Technology doesn't stand still, which is why we are constantly innovating to bring you the best products on the market.

Our strong vision and focused innovation strategy, not to mention our passion to revolutionize the industry, ensure that Parker Torchology is a byword for excellence.

We Talk Torches

Duragrip Auto-Voltage Spool Gun Mig/Mag Gun Range

Air-Cooled Features Focus

Automatic Voltage Adjustment Guns can be mounted directly to the power source without the need to identify motor input voltage or the re-configuration of power source wiring systems.

The on-torch mounted control unit automatically configures the required motor voltage and integrates with the power source.

A Cost Effective Solution for Long Distance and Low Deposition Welding

100% Tweco® Wear Parts Compatibility Guaranteed

Quality Wear Parts

All wear parts are manufactured to exacting specifications ensuring reliability, longevity and superior performance

- The same wear parts are utilized as standard TWC ranges minimizing stock handling

Ergonomics – For Comfort and Handleability

Every detail has been considered to ensure the welder has the very best handling

- New lightweight single piece coax system
- A knuckle joint enables small movements of the handle independently of the cable assembly
- Improved balance and positionability resulting in reduced welder fatigue

Infinitely Adjustable Wire Tension

- A unique lever action wire retainer and brake system holds all soft wire spools in place at the correct brake tension
- A further secondary brake system is integrated into the spool holder for independent adjustment of larger steel wires on all torches over 200 Amp

Features Focus

Welding Tools for the Professional

Precision and Visibility

- Precise and constant wire feed
- Contact pressure of the feed rollers regulated directly on the handle
- Transparent window for quick and easy reference to all moving parts
- Rapid access for wire changes

Torch mounted control system

No machine wiring required

- Single voltage motor suits all power source types
- On-torch speed adjustability
- Faster wire speeds than conventional PCB system

The Smart Way To Buy Welding and Cutting Tools

DSPAV TW300 Duragrip Spool Gun Mig/Mag Torch Range

Rating: 230A CO₂, 200A mixed gas, EN60974-7 @ 35% duty cycle. 0.6-1.2mm wires
